318 If the Property is served by a well, neither Seller nor any Brokerage Firm(s) or Brokers/Salespersons involved in the

335 result in a penalty against the transferee and rejection of the deed for recording.

336
337 **NATURAL WATER BODIES AND LAND PRESERVATION DISCLOSURE:** Buyers of property in the State of Montana
338 should be aware that some properties contain or are adjacent to streams, rivers, wetlands, floodplains and other water
339 bodies. It is the general policy of the State of Montana, under the Montana Natural Streambed and Land Preservation
340 Act of 1975, that natural water bodies and the lands immediately adjacent to them are to be protected and preserved to
341 be available in their natural or existing state, and to prohibit unauthorized projects related thereto. Property owners should
342 consult their local conservation district, a land use professional, or other qualified advisor, regarding any applicable local,
343 state or federal regulations, including permitting or other approvals, before working in or around any streams, rivers,
344 wetlands, floodplains or other water bodies, including vegetation removal.

345
346 **FLUCTUATING WATER LEVELS:** Buyers of waterfront property or property which has waterfront access should be

353 groundwater (water rising up through the ground). Buyer's hazard insurance policy usually will NOT cover property
354 damage due to this type of flooding. If Property is determined to lie within a FEMA-designated 1% Flood Hazard Area
355 and the Buyer is obtaining a loan, Buyer's lender will likely require the purchase of flood insurance in connection with
356 Buyer's purchase of the Property. The Property could be impacted, learn more at FEMA.gov.

357
358 **MINERAL RIGHTS:** "Mineral rights" as defined in this Agreement (which may be different than the definition under
359 Montana law) is a term used to describe the rights the owner of those rights has to use, mine, and/or produce any or all
360 of the minerals and hydrocarbons including oil, gas, coal, sand, gravel, etc., lying below the surface of property. These
361 mineral rights may be separate from the rights a property owner has for the surface of a property. In some cases, these
362 mineral rights have been transferred to a party other than the property owner and as a result the subsurface mineral rights
363 have been severed from the property owner's surface rights. If the mineral rights have been severed from the surface
364 rights, the owner of the mineral rights has the right to enter the land and occupy it in order to mine the minerals even
365 though they don't own the property. The undersigned Buyer acknowledges and agrees that neither the Seller nor the
366 brokerage firms, brokers and salespersons involved in the transaction anticipated by this Agreement warrant or make any
367 representations concerning the mineral rights, if any, for this Property and that neither the Seller nor the brokerage firms,
368 brokers and salespersons involved in the Buyer's purchase of the Property have conducted an inspection or analysis of
369 the mineral rights to and for the Property.

Buyer further acknowledges that (i) the amount of property tax that Buyer will ultimately pay for the Property in 2026 and beyond may differ materially from prior tax years; (ii) whether the Property qualifies for any reduced tax classification depends on Buyer's use, occupancy, enrollment, and compliance with applicable Montana statutes, Montana Department of Revenue rules, and administrative processes; and (iii) neither Seller nor any Brokerage Firm(s) or Brokers/Salespersons involved in the transaction anticipated by this Agreement have made any representations, warranties, or guarantees regarding the Property's current or future property tax classification, tax rates, eligibility for reduced tax rates, property tax bills, or tax liability.
